A CANADIAN COUNTRY INN

Room Styles

Honeymooner's Dream Rooms

Rooms 1, 2 & 3

Offering the brightest rooms with floor to ceiling windows and awesome views from the highest point of our Inn. Vaulted ceilings and canopied four poster beds with hand designed covers and lace mantels add to the romance of these rooms. The walls have been toned to enhance the bright sunshine of the captivating rocky mountains. During the warmth of summer months the fireplace is filled with fresh flowers to compliment those overflowing on your private balcony. A corner whirlpool bath lets you soak amongst candles whilst feeling the breeze enter from the large glass patio doors.

Historical Travellers Rooms

Rooms 4, 5 & 6

To capture the Canadian History and Canmore's Heritage, Fiona & Lonny have travelled the length and breadth of Alberta to find interesting Canadiana furniture to add warmth to these beautifully rich rooms. Hand-crafted four poster beds are carved with Alberta's wild roses, and the chiropractic mattresses, new goose down duvet and crisp white linens will help you drift into the old fashioned Canadian style and comfort you thought had long since disappeared. Pictures of Canmore's mining heritage adorn the evergreen coloured walls in these rooms. As you sit by the fireplace or on your balcony gazing at the majestic mountains you can try if you are able to imagine the old Canmore with so few facilities whilst soaking in the luxurious amenities of your guest room. A corner whirlpool bathtub and the close proximity of the lounge and dining room make these rooms a true home from home experience.

Spa Rooms

Rooms 7, 8, 9

These beautifully decorated rooms reflect the healthy lifestyle of the mountain loving Canadian. Glass patio doors let in sunshine and lead out to your private patio to enjoy the garden, panoramic mountain view and all day sunshine. These rooms adjoin the cedar laid changing room and outdoor Hot Spring Spa Therapeutic Hot tub with its 31 massage jets. With the close proximity of the Hot tub and your in-room Jacuzzi tub you have the perfect spot to enjoy perfect Canadian living. A hand carved four poster bed, fire place filled with fresh flowers during the hot summer months and burning logs in the winter, plus pictures and memorabilia of the energetic Canadian skiers, hikers, climbers and cyclists help maintain the fresh healthy theme of these rooms.
